SKILLS

- **Programming Languages**: Proficient in **Java** for developing robust, scalable applications with a focus on problem-solving and performance optimization.

- **Web Development**: Strong knowledge of **HTML**, **CSS**, and **JavaScript** for building dynamic, user-friendly websites with responsive designs.

- **React**: Developed a **portfolio project** using **React**, showcasing front-end design and development skills with interactive components and state management.

- **Full Stack Development**: Hands-on experience with **full-stack development** in a startup environment, where I contributed to both front-end and back-end development, gaining practical experience in building and deploying web applications

EDUCATION

- **Bachelor of Technology (B.Tech)** in **Computer Science and Information Technology (CSIT)** | *Sri Indu College of Engineering and Technology*
  CGPA: **8.38** | *Expected Graduation: 2026*
- **Senior Secondary (XII)** | *Sri Chaitanya College*
  CBSE |**72.25%** | *2022*
- **Secondary School (X)** | *St. John's High School*
  CBSE | **10/10 CGPA** | *2020*

EXPERIENCE

- **Full Stack Developer Intern** | *Gwing Company Startup*
  Date of Internship
  Contributed to developing and maintaining the company's web application as a **Full Stack Developer**. Worked on both front-end and back-end technologies, building features, ensuring the system's scalability, and collaborating with team members to deliver results.

- **Team Member** | *Smart India Hackathon*
  Date
  Participated in the **Smart India Hackathon** with a team that made it to the finals. Contributed to project development, presenting technical solutions, and collaborating with team members to create innovative ideas to address real-world problems

ACADEMIC PROJECTS

❖ *Weather Forecast Web Application* | *Team Lead*
Date
*Led a team in the development of a **Weather Forecast** web application, where users could view real-time weather updates. The project was developed using core web technologies (**HTML, CSS, JavaScript**) as a practice exercise to strengthen foundational web development skills. Managed the project timeline, distributed tasks, and ensured effective collaboration among team members to meet project goals.*

Additional Achievements

- **Smart India Hackathon Finalist**: Successfully reached the finals of the **Smart India Hackathon** as part of a team that developed innovative solutions for real-world problems.

- **College-level Communication & Presentation Certificate**: Awarded for outstanding communication and presentation skills in college events, recognized for the ability to articulate ideas clearly and effectively.

- **Leadership in Academic Projects**: Led the development of the **Weather Forecast Web Application**, demonstrating leadership, teamwork, and technical proficiency.

- **Active Participation in College Events**: Regularly participate in academic and extracurricular events, showing strong engagement and enthusiasm for continuous learning.
